

# InventoryControl

*The Complete Inventory Tracking Solution for Small Businesses*

# Inventory Control

Get in control of your inventory with Wasp Inventory Control – the complete inventory tracking solution for small businesses. Wasp Inventory Control allows small businesses the ability to accurately track inventory, without the complexity and expense of an enterprise solution.

- Avoid cumbersome manual processes
- Audit your inventory with confidence
- Circumvent inventory shrinkage
- Track inventory at multiple sites & locations
- Track inventory by serial number, lot, pallet, date, or any other custom metric
- Integrate your inventory, financial, & sales order solutions\*
- Update inventory records in real-time\*

\*RF Professional & RF Enterprise

Manage your inventory from the time it enters your warehouse to the time it is sold & shipped to the customer. With a robust inventory management solution you empower your business to grow. Never disappoint a customer by failing to fulfill an order when an item is out of stock. Utilize the 60+ comprehensive reports to make informed business decisions – what items are flying off the shelves & what items are taking up valuable warehouse real estate.

Update inventory data with mobile devices on-the-go wherever your stock resides. Inventory Control Standard edition allows batch updating to your PC using a cable whereas Inventory Control RF Professional and Inventory Control RF Enterprise edition allow real-time updates with 802.11 b/g/n wireless communication.

\*Refer to page 3 for more information on RF

Inventory Control RF Professional and RF Enterprise editions integrate with QuickBooks®, the #1 selling small business accounting solution, with the addition of the QuickBooks Connector Module. Greatly enhance productivity and efficiency by smoothly syncing your Inventory Control data into QuickBooks and avoid data entry duplication and costly errors.

\*Refer to page 5 for more information on QuickBooks integration

Inventory Control provides a powerful perspective on your business. Receive alert notifications for low stock levels and quickly email purchase orders to your suppliers, ensuring that the stock you need is always on hand. Wasp Inventory Control delivers the tools you need to ensure that your business is running smoothly, in an intuitive, easy-to-use interface.

Wasp Inventory Control is ideal for tracking stock in many environments, including:

- Warehouses
- Light manufacturing & distribution centers
- Retailers
- Stock rooms & supply closets
- Installation contractors or any business that buys, stocks, and sells parts and products

► Manage your inventory

► Access pre-built management reports

Access Information Instantly and Securely

- ▶ Find critical data quickly using Advanced Find feature
- ▶ Ensure data integrity with feature-based security
- ▶ Manage your business using 60+ business reports

# Inventory Control RF Professional & RF Enterprise

Access real-time inventory data

Update inventory data from anywhere in your network with Inventory Control RF Professional and RF Enterprise. You can create, edit, move, or remove inventory items on-the-go with your mobile computer and the Inventory Control's software is updated instantly. Wireless communication ensures that your inventory data is always accurate – so you know exactly what is in stock and where items are located. Use an Inventory Control RF edition with your organization's existing 802.11 b/g/n network or add the Unifi™ wireless access point solution to expand your network capabilities. (part number 633808391232).
