CORDLESS POCKET BARCODE SCANNER

The Wasp WWS250i Bluetooth barcode scanner is the ideal pocket scanner for the mobile workforce This scanner gives you the flexibility to wirelessly transmit barcode data to your iOS, Android, or Windows smartphone or tablet device from up to 30' away. The pocket-sized form factor makes it ideal for environments where mobility is vital, including retail, office, healthcare, warehouse management and more. Pair the scanner with your mobile device or PC for a quick mobile solution.

Delivering fast and accurate scanning performance, the WWS250i utilises an aggressive scan engine to quickly read all popular (1D) and (2D) barcodes, including QR codes, from up to 20" away. The WWS250i can easily read coloured, poorly printed or even damaged barcodes in nearly any amount of light – from total darkness to bright sunlight. With 2MB of internal storage and a rechargeable lithium ion battery, it is capable of holding up to 20,000 barcode data and running for an entire shift, capturing up to 7,600 scans on a single charge.

Built for busy, high-use environments, the WWS250i has an IP55 rating against moisture and dust and its durable housing is able to withstand multiple 5ft drops to concrete preventing downtime and costly repairs. Haptic feedback, along with the LED and beep tone indicators, inform users of the power status, bluetooth connectivity, and barcode detection.

The WWS250i includes a 2-year manufacturer's warranty covering material defects.
