### Feature 1

Perfect fit for scanning mobile QR codes and bar codes

Enables high-speed scanning of QR codes displayed on LCD screens. Excellent scanning performance for codes printed on paper, too.

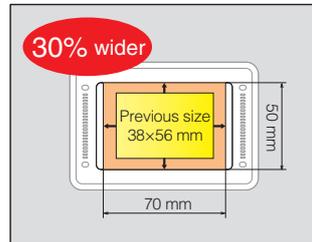

\* If protective film is affixed to the LCD screen, code scanning performance may be affected.

### Feature 2

Can scan codes displayed on large-screen smartphones

30% increase in scanning area from the previous model enables easier scanning.

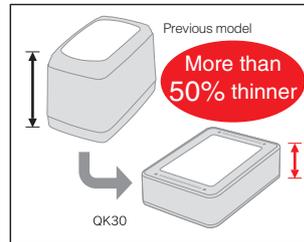

\* When scanning codes displayed on an LCD screen

### Feature 3

Compact design

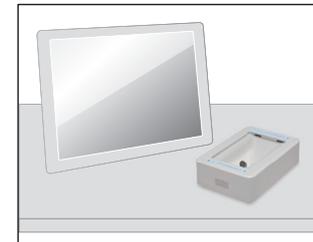

More than 50% thickness reduction compared to the previous model further enhances mountability.

### Feature 4

Stylish design

Sophisticated design suitable for use with smart devices.
